

PERFECT-IT™

ANOTHER 3M REFINISHING INNOVATION

3M Perfect-It™ III Paint Finishing System

The 3M™ Perfect-It™ III Paint Finishing System

A BREAKTHROUGH IN REFINISHING TECHNOLOGY

Long the standard of quality and preferred refinishing system among automotive professionals, the 3M™ Perfect-It™

line has ushered in a new era with the revolutionary technology of the 3M™ Perfect-It™ III Paint Finishing System.

This state-of-the-art system incorporates remarkable innovations and technological advancements to achieve the ultimate in superior performance. The complete line is the only system you need to produce a near-perfect finish—the finish you

deliver to your customers with pride.

THE 3M™ PERFECT-IT™ III PAINT FINISHING SYSTEM

Major advantages and benefits:

The 3M™ Perfect-It™ III Paint Finishing System is the only system needed for all of your refinish jobs, whether dry sanding or wet sanding is preferred. This system is designed to outperform all other paint finishing systems on the market today, leaving a near-perfect finish on all types of automotive paints.

3M™ Perfect-It™ III Cleaner Clay

- Safely removes overspray and paint contaminants
- Use **with** water-based lubricants
- Effective on paint, glass, and chrome

3M™ Perfect-It™ III Extra Cut Rubbing Compound

- Excellent compound for all paints, especially high solids, low VOC paints
- Quickly removes 1000 and 1200 sand scratches
- Increased working time for more cutting power
- Works great with foam or wool pad

3M™ Perfect-It™ III Rubbing Compound

- Superior cut combined with a high-gloss, ultra-fine finish
- Completely removes sand scratches without filling
- Easy to detail from door jams, cracks and mouldings
- Little splatter and sling makes clean-up a snap

3M™ Perfect-It™ III Machine Glaze

- Quickly removes compound swirl marks
- Produces a high-gloss, swirl-free finish quickly and effortlessly
- Easy clean up
- Optimized for today's automotive paints

3M™ Perfect-It™ III Finishing Glaze

- Hand or DA applied
- Applying by DA saves time and effort
- Silicone free
- Produces a high-gloss, deep-lustre durable finish

3M™ Superbuff™ III Buffing Pads

- Stiffer central hub for more cutting power
- Untwisted yarn construction gives excellent cut and finish
- Double-sided pad gives twice the usable buffing surface
- 2 long-lasting pads are available: 100% Wool (05703) and blended (05704)

3M™ Perfect-It™ III Rounded-Edge Foam Compounding Pad

- Lint free 8" pad
- Patented convoluted foam makes pad run smoothly and reduces chance of burning
- Increased durability and aggressiveness
- Less likely to load

3M™ Perfect-It™ III Detailing Cloth

- Completely removes oily residue, including waxes, polishes, glazes and fingerprints
- Great for paint, chrome, glass, dashboards and more
- Clear coat safe

3M™ Hookit™ II Finishing Film Discs

- Features the new Hookit™ II attachment system
- Less shifting of abrasive during sanding
- Longer accessory life
- Easier removal of disc
- Less linting

3M™ Perfect-It™ Foam DA Glazing Pad

- Evenly applies finishing glaze
- Faster glaze applications
- Gentle convoluted foam
- Use with 6" dual-action sander

THE 3M™ PERFECT-IT™ III PAINT FINISHING SYSTEM

Major advantages and benefits:

Wet sanding with the 3M™ Perfect-It™ III Paint Finishing System includes using 3M™ Imperial™ Wetordry™ Abrasives for improved life and durability, and less curling for ease-of-use. These abrasives come in five grades, to meet a broad range of application needs:

GRADE 1000

- Levels orange peel, dust nibs or paint runs in refinish acrylic lacquer paint

GRADE 1200

- Levels orange peel, dust nibs or paint runs in all types of automotive paints
- Appropriate for **light sanding** on refinish lacquer

GRADE 1500 and GRADE 2000

- Levels minor dust nibs
- For light sanding of mismatched orange peel on all automotive paints

GRADE 2500

- For light sanding on all automotive paints
- For areas that require hand compounding
- For sanding dark-colored paints

Sanding

Quickly removes imperfections and levels orange peel by hand or machine.

Compounding

Excellent for quick removal of sand scratches from **all** paints, while leaving a nearly swirl-free finish.

Machine Glazing

Quickly removes compound swirl marks and produces a high-gloss, swirl-free finish without filling.

COMPOUND CUT PERFORMANCE
