	100113	Rage Gold	3 gallon pail
	100114	Rage Gold	5 gallon air pail

# RAGE<sup>®</sup> GOLD

## Formulated with miracle Sanding Hattonite!

Rage Gold is Evercoat's easiest sanding body filler. Its unsurpassed sanding qualities are attributed to Hattonite. Hattonite is a unique ingredient that reduces friction and heat generated from aggressive sanding. As a result, the filler cuts easier and the sandpaper lasts longer.

Additionally, Rage Gold incorporates every added feature possible!

- **Vacuum processed** which extracts air from the filler before it is packaged. This greatly **reduces pinholes**.
- **ZNX-7 provides superior adhesion** to galvanized steel and aluminum. Part of the MetalWorks<sup>®</sup> System that honors the OEM corrosion warranty.
- Includes a special air releasing additive that allows the filler to spread smoothly with less pinholes.
- Formulated with the **highest quality resin available**, the same as Evercoat's polyester glazing putties. It is stain resistant and does not shrink.
- **Completely clog free**. Start sanding quickly without having to cut through any surface tack. Plus, you save on sandpaper.
- **Can be intermixed** with Evercoat's polyester glazing putties for custom filling.
